Fall is the perfect time to get outside and plant new trees, shrubs and perennials.

Warm soil and cool air stimulate root growth that helps establish the plant before the ground freezes.

During the fall, plants can direct their energy primarily towards root development, to set the stage for healthier, more robust growth in the spring.

LET'S PLANT THE SEEDS FOR A BRIGHTER FUTURE

Saturday, September 30th – Monday, October 9th, 2023

For over a decade, your support has planted the seeds for children and teens in the community who face life-threatening illnesses and extended hospital stays. With your support, we've been able to fund programs for them. This year, we're hoping you can help us make an even bigger impact.

Please round-up your purchase to the nearest dollar at the register to help reach our goal.
